

The Valley Central School District is committed to making the information on its website accessible to all individuals including individuals with visual, hearing, or cognitive disabilities.

Good faith efforts have been made and will continue to be made to ensure that the website complies with New York State and Federal standards on website accessibility.

The District will train administrators, faculty, and staff who upload content at least once every two years to be familiar with accessibility issues to better update and create new content. The Superintendent, or his designee, will design a process for the District to follow in order to check accessibility before an item is posted to the website.

If a user is unable to access any page(s) on the District site, please send an email to the District at Christopher.mohr@valleycentralschools.org. Please supply detailed information on the location of the page or document you were attempting to access and any assistive technology you were utilizing. In addition, be sure to include your name, email address and phone number. Our goal is to resolve the accessibility issue as swiftly and appropriately as possible, including, if necessary providing the information in another compatible format. If an issue arises involving academic assignments, please copy your teacher on the email to the District and specify the class.

Please note that some pages on the District website may contain links to third party sites, which are not within the District's control and may not comply with accessibility standards. The District is not responsible for the content or accessibility of third party sites.
