

As a user of the Valley Central School District's computers and networked information resources (including the Internet), I have read Policy and Regulation 4526. I understand the Policy and Regulation and agree to comply with them by communicating over the network in an appropriate fashion while honoring all relevant laws and restrictions.

If I violate any of the provisions of the Policy and/or the Regulation, I understand that I may have my network access suspended or revoked; that I may be subject to disciplinary action consistent with the applicable collective bargaining agreement; and that if I engage in a suspected illegal or criminal activity while using the network, I may be referred to the appropriate law enforcement agencies. I further understand that some materials on the Internet may be objectionable and inappropriate for school or classroom work. I accept responsibility for using these resources for strictly educational purposes and conveying these standards of use to my students when selecting, sharing, or exploring information and media.

I understand that computers and all networking resources remain the exclusive property of the District; therefore, I have no expectation of privacy in anything I create, store, send, receive or access on the computer or e-mail systems of the District. I further understand that even when a message is deleted or erased it still may be possible to recreate the message and therefore no expectation of privacy is inferred in any deleted items.
